PROFESSIONAL SUMMARY

Aspiring Application Security Engineer and Python Developer with hands-on experience in building secure back-end systems using Django and FastAPI. Proficient in identifying vulnerabilities and implementing remediation steps in web architectures. Strong foundation in automated testing, CI/CD security integration, and Python-based tool development.

TECHNICAL SKILLS

Security & Tools: OWASP ZAP, Pen Testing basics, Vulnerability Remediation, Git, GitHub Actions (CI/CD).

Programming: Python (Advanced), SQL, Django REST Framework, FastAPI.

Core Competencies: Web Application Architecture, Secure API Integration, OOP, Data Structures & Algorithms, Prompt Engineering.

Databases: MySQL, SQLite, Django ORM (Optimized Querying).

PROFESSIONAL EXPERIENCE

Tudip Digital

Pune, India

Software Engineer Intern

March 2025 – September 2025

- Developed and maintained secure RESTful APIs using Python, ensuring system reliability and data integrity.
- Identified and resolved software defects through systematic code reviews and debugging, ensuring high code quality and adherence to security standards.
- Optimized SQL queries for relational databases, focusing on efficient data retrieval and secure management practices.
- Authored technical documentation for backend modules and presented progress to stakeholders, demonstrating clear communication of technical concepts.

PROJECTS

Health Wallet — *Python, Django, MySQL, RBAC, Data Security*

- Engineered a secure web-based platform for personal health records featuring Role-Based Access Control (RBAC) to protect sensitive patient data.
- Implemented structured data storage and input validation to mitigate common web vulnerabilities and ensure scalable record management.

Little Lemon Restaurant App — *Django, REST API, Authentication*

- Designed a full-stack application with robust user authentication and backend business logic for reservation management.
- Applied structured testing and debugging to ensure reliable performance and secure handling of user data.

EDUCATION

PBR Visvodaya Institute of Technology and Science

Jan 2021 – May 2024

Bachelor of Technology (B.Tech) in Computer Science and Engineering

CGPA: 7.9/10

CERTIFICATIONS & ACHIEVEMENTS

- J.P. Morgan Software Engineering Job Simulation (Python Full-Stack).
- Fast API & Django 101 – Simplilearn; JavaScript – CS50.
- Solved 50+ LeetCode problems (Arrays, Trees, Graphs) demonstrating strong analytical and algorithmic skills.
- Built and deployed containerized applications using Git-based workflows.
